

AppRiver email threat protection scales from 50 to 500+ users for complete care — and will continue accommodate future growth

TAKEAWAYS

Scale an existing, reliable email threat protection solution

Solid Security Posture Decisions

Earlier this year, Community Care joined AppRiver as a client. The Executive Team evaluated AppRiver's email threat protection solution and decided to implement it across the organization. AppRiver's email threat protection solution is a cloud-based, scalable solution that provides comprehensive protection for email communications. The solution is easy to integrate with existing email systems and provides a high level of security and compliance.
